

Certified Organic Stock Print Boxes

During one of our first tours of the SF Wholesale Market with CCOF, we noticed several growers placing small printed paper labels on stock print boxes to indicate they were certified organic. We saw this as a great opportunity to design and introduce a Certified Organic stock print product line. Since then we have expanded the line ranging from leafy greens, broccoli, herbs, squash, tomatoes and berries. We hope this offering supports growers to clearly be identified as organic at the market, in the cooler, and at retailers.

How to Order our Certified Organic Boxes. . .

Being the sole producer of CCOF row crop boxes we ask that you please show your CCOF location info that you can print on labels, boxes, and other pack out materials. Our Certified Organic print boxes are made in California and are warehoused in Watsonville, CA. All boxes can be shipped nationwide.

- You are a CCOF grower
- Share with us what you are wanting to pack, and what sizes you may have in mind
- Quantity you are looking for and location of your farm
- Local pick up in Watsonville, CA or shipping options available

Features & Benefits of our Boxes

- Large ventilation holes help minimize spoilage.
- Self-locking closures help to reduce product loss.
- Space provided to identify product and grower/packer.
- Waxed boxes are coated inside and out to resist humidity and damage from moisture.
- Ideal for CSA programs, large, medium, and small share sizes

For full product line offering see back page, for questions and orders please contact us 831-724-7581 or at sales@sambrailo.com
